

## FEATURES

- ✓ **Maximum Temperature:**  
650 °C/1200 °F
- ✓ **Heavy Duty Ceramic Construction**
- ✓ **Color-coded Dot**

## Overview

OHA-06 series Ceramic HT Thermocouple Connectors feature ultra high temperature and heavy duty design. The color-coded dots conform to ANSI standard. They are fully compatible to all industry standard size connectors. These ceramic connectors are ideally suited for applications such as high temperature furnaces.

OHA-07 series Thermocouple Connectors come in at miniature size.
